

BREEZE IMPULSE QL LOW S1P ESD HRO SRA

Art. No. 64.752.8

- Protection:** fiberglass toe cap and flexible FAP[®] midsole
- Plus:** ESD, metal free, breathable functional lining, comfortably-padded collar and dust tongue, QUICK LOCK lacing system
- Upper:** Sandwich Mesh with reinforcements
- Lining:** breathable functional lining
- Footbed:** anatomically formed comfit[®] AIR footbed
- Sole:** DUAL.IMPULSE - 300°C heat and slipresistant rubber outsole with double foamed IMPULSE.FOAM[®] midsole in two different densities for maximum cushioning, stability and comfort
- Colour:** black-blue
- Sizes:** 36 - 47

DUAL IMPULSE SLIP RESISTANT OUTSOLE

The easy to clean rubber outsole ensures perfect ground contact. It is non-slip and abrasion resistant as well as heat resistant up to 300°C (HRO). The specially designed cleat profile and the wide flex grooves guarantee optimum flexion, optimize the water-displacing properties (windscreen wiper effect) and provide firm grip on a wide variety of grounds.

FAP[®] - Flexible Anti Penetration

The flexible anti-penetration midsole made of ceramic-coated fibers, reliably protects the feet completely from penetrating objects.

IMPULSE.FOAM[®] midsole

Ultimate comfort during long working days. The innovative IMPULSE.FOAM[®] midsole in two different densities reacts to each of your steps with an energy impulse. Thereby the IMPULSE.FOAM[®] does not only return the energy, but also provides maximum cushioning and excellent stability.

QUICK LOCK

Press, turn and the shoe sits perfectly on the foot - permanently. The precisely adjustable twist lock of the QUICK LOCK lacing system is as simple as it is ingenious. If you pull on the fastener, the laces come loose. Another advantage - operable with gloves.
