- Colour:** brown-yellow (410)
- Sizes:** 41 - 47

WATER RESISTANT SLIP RESISTANT

HRO SOLE

### XTS OUTSOLE

The off-road profile of the up to 300°C heat-resistant, non-slip rubber outsole (HRO, SRC) ensures optimal ground contact, especially on unpaved surfaces. The wide studs clean themselves while running (mud release) and ensure maximum flexibility.

### evercushion® CUSTOM FIT MID

The anatomically shaped evercushion® CUSTOM FIT MID footbed provides optimal cushioning with every step. The specially coordinated arch support enables the natural positioning of the foot in the shoe and stimulates the muscles when walking.

### COA.TEX®

The durable, water resistant and windproof high-tech membrane is particularly breathable and protects the foot from waterlogging through a microporous fabric structure. The membrane transports sweat and moisture to the outside. What remains is a pleasantly dry and comfortable foot feeling.

### UPPER

With the use of at least 2.0 mm thick nubuck leather, a high quality premium upper material is used and, thanks to its soft and velvety surface, it offers particular comfort.
