

TWIST PINK WNS LOW S1P ESD HRO SRC

Art. No. 64.520.0

- Protection:** fiberglass toe cap and flexible FAP[®] midsole
- Plus:** reflecting elements, abrasion resistant toe protection, anatomically formed footbed
- Upper:** hard-wearing textile fabric with sandwich-mesh and FITFRAME[®] elements
- Lining:** breathable functional lining
- Footbed:** anatomically formed comfit[®] AIR footbed
- Sole:** XTS TRAIL - high quality, 300°C heat and slip resistant, rubber outsole with IMPULSE.FOAM[®] midsole or optimal cushioning, stability and comfort
- Colour:** gray-pink
- Sizes:** 36 - 42

SLIP RESISTANT XTS TRAIL OUTSOLE

The easy-to-clean rubber outsole ensures perfect contact with the ground. It is non-slip and abrasion-proof and heat-resistant up to 300°C (HRO). The specially designed cleat profile and the wide flex grooves guarantee optimal flexion, optimize the water-displacing properties (windshield wiper effect) and provide a secure hold on a wide variety of surfaces.

FITFRAME[®] (SEAMLESS TECHNOLOGY)

Innovative designs, high functionality and a low weight - with FITFRAME[®] no problem. Seamlessly welded reinforcements combined with breathable textiles ensure maximum breathability and comfort

IMPULSE.FOAM[®] midsole

Ultimate comfort during long working days. The innovative IMPULSE.FOAM[®] midsole in two different densities reacts to each of your steps with an energy impulse. Thereby the IMPULSE.FOAM[®] does not only return the energy, but also provides maximum cushioning and excellent stability.

comfit[®] AIR FOOTBED

The newly developed, breathable ALBATROS[®] comfit[®] AIR footbed has elevations in the heel and ball area of the foot as well as a support of the longitudinal arch. This helps the foot keeping its natural position in the shoe and stimulates the musculature while walking. The slip-resistant textile cover is odour-resistant, moisture absorbing and washable at 30°C.
