

## VOLTAGE BLACK QL LOW S1P ESD HRO SRC

Art. No. 64.767.0

- Protection:** fiberglass toe cap and metall-free flexible FAP<sup>®</sup> Lite midsole
- Plus:** ESD, metal-free, breathable functional lining, pull-on loops for easier entry, comfortable collar and tongue padding, QUICK LOCK lacing system
- Upper:** transparent, extremely breathable textile fabric with microfiber and TPU reinforcements
- Lining:** breathable functional lining
- Footbed:** evercushion<sup>®</sup> CUSTOM FIT MID
- Sole:** WORKLETICS 3D SOLE - 300°C heat and slip resistant rubber outsole with PWR BEADS<sup>®</sup> for superior energy return and EVA midsole for optimal cushioning, stability and comfort
- Colour:** black
- Sizes:** 39 - 48

### WORKLETICS 3D-SOLE

The core layer of the sole is the large pad made of PWR BEADS<sup>®</sup>, which extends far below the metatarsus. The upper layer, made of very light EVA material, provides dynamic cushioning with good stabilization at the same time. The right grip is guaranteed by the non-slip and abrasion-resistant, two-colour rubber outsole with wide flex grooves for optimum flexibility.

### PWR BEADS<sup>®</sup>

The already very cushioning PWR BEADS<sup>®</sup> are literally baked together to form one element during the production process. Together they achieve an excellent energy return of 58%.

### QUICK LOCK

Press, turn and the shoe sits perfectly on the foot - permanently. The precisely adjustable twist lock of the QUICK LOCK lacing system is as simple as it is ingenious. If you pull on the fastener, the laces come loose. Another advantage - operable with gloves.

### FAP<sup>®</sup> Lite

The latest generation of metal-free penetration protections:

- 50% lighter
- very high flexibility
- better cushioning and pressure elasticity
- cooling effect through breathability and sweat absorption
