

PRODUCT DATA SHEET

Article No. 64.390.0 - FUSE KNIT BLUE WNS LOW S1P ESD HRO SRC

- Protection: fiberglass cap and flexible FAP@lite midsole
- Plus: ESD, metal free, vegan, microfiber eyelet element and toe cap protection
- Upper: SAFETY KNIT® with FUSE.TEC® elements
- Lining: BreathActive functional lining
- Footbed: evercushion® CUSTOM FIT MID
- Sole: rubber sole MOTION IMPULSE triple density - 300°C heat and slipresistant rubber outsole with IMPULSE.FOAM® midsole in two different densities for maximum cushioning, stability and comfort
- Sizes: 36 - 42

MOTION SOLE

The 300°C heat resistant HRO rubber sole is inspired by the latest running technology. The anti-slip sole profile with its diagonal grooves ensures a perfect flexibility and secure contact to the ground.

FIBERGLASS CAP

The newly developed high-tech fiberglass toe cap for optimized protection and more freedom of toes.

IMPULSE.FOAM® MIDSOLE

Ultimate comfort during long working days. The innovative IMPULSE.FOAM® midsole in two different densities reacts to each of your steps with an energy impulse. Thereby the IMPULSE.FOAM® does not only return the energy, but also provides maximum cushioning and excellent stability.

evercushion® CUSTOM FIT MID

The anatomically shaped insole cushions optimally with every step. The specially coordinated arch support enables the foot to be positioned naturally in the shoe and stimulates the muscles when walking.

TORSION CONTROL ELEMENT

The TPU torsion control system in the waist of the sole supports the natural flexing action while you are walking and provides you with a better support and stability.

SAFETY KNIT®

The high flexible textile cuddly fits to the foot so that you got the impression wearing a sock. The upper SAFETY KNIT™, a mixture of high quality synthetic fabrics, offers a high flexibility and a high resistance at the same time.
