PU OUTSOLE White `n Service

Due to the special anti slip profile of the abrasion-resistant, flexible and light polyurethane sole, liquid is drained and non-slip optimized.

COMFIT®VIVA

The anatomically shaped footbed made of soft EVA has shock absorbent properties that improve the protection of joints, muscles and bones. The ergonomic longitudinal arch support delivers optimized stability, while the textured section on the ball massages the front of the foot with every step. The perforations improves breathability – to pleasantly optimize comfort.

PU MIDSOLE

The direct injected lightweight PU midsole provides you with shock absorption across the whole tread.

UPPER

No, it's not leather, but a hardwearing, easy-to-care microfibre material that is water and dirt repelling.
