

ECLIPSE GREY LOW S1 ESD FO SR

Art. No 64.793.0

EN ISO 20345:2022+A1:2024

Protection: fiberglass toe cap

Plus: extremely flexible and lightweight, ESD

Upper: Sandwich mesh with FITFRAME[®]-Elements

Lining: BreathActive functional lining

Footbed: evercushion[®] RELIEF

Sole: NEOFLEX- with highly flexible and slip-resistant outer EXOshell and EFFECT.FOAM on the inside for excellent cushioning and up to 60% energy return

Colour: grey

Sizes: 36 - 49

Also available:

ECLIPSE AIR LOW
647940

ECLIPSE GREY QL LOW
647920

*in progress

EXOshell OUTSOLE

The ultra-thin outer EXOshell, crafted from a proprietary compound, delivers exceptional durability and extraordinary grip. Feather-light and engineered with our naturalFLEXMOTION[®] running concept for maximum flexibility, it moves as naturally as you do. A distinctive waffle-profile tread further enhances traction for secure footing—particularly on demanding industrial floors.

EFFECT.FOAM[®]

Tireless comfortable!

- 60% energy return
- 47% less impact on bones and joints*
- extremely powerful and light
- permanently high level of comfort for fatigue-free work

* Dynamic energy absorption reduces the impacts to 1.6KN, the average for safety shoes is 3.0KN.

EVERCUSHION[®] RELIEF

The contoured evercushion[®] RELIEF footbed follows the shape of the foot and ensures pressure relief. A specially coordinated arch support enables the foot to be positioned naturally in the shoe and stimulates the muscles while walking. A layer of particularly soft and stable foam guarantees extra cushioning and thus superior shock absorption. Grooves on the underside of the insole ensure that the sole does not slip in the shoe.

FITFRAME[®] (SEAMLESS TECHNOLOGY)

Innovative designs, high functionality and a low weight - with FITFRAME[®] no problem. Seamlessly welded reinforcements combined with breathable textiles ensure maximum breathability and comfort
