

## AIRFLOW GREY/YELLOW LOW S1 ESD FO SR

Art. No. 64.882.0

EN ISO 20345:2022+A1:2024

**Protection:** fiberglass toe cap

**Plus:** metal free, breathable functional lining, comfortably-padded collar and dust tongue

**Upper:** durable microfibre with breathable Sandwich-Mesh

**Lining:** breathable functional lining

**Footbed:** anatomically formed and breathable EVA footbed

**Sole:** flexible, profiled, slip and abrasion resistant DUO-PU outsole

**Colour:** gray

**Sizes:** 36 - 48

Also available:

AIRFLOW BLK QL LOW  
648840

AIRFLOW GREY/ORANGE LOW  
648850

\*in progress

### SLIP-RESISTANT OUTSOLE

The abrasion-resistant, cushioning DUO-PU sole is particularly characterized by its flexibility and slip resistance. The sole profile has wide flex grooves and differently designed profile elements for excellent grip on different floors, especially on industrial floors.

### UPPER

No, it's not leather, but a hardwearing, easy-to-care microfibre material that is water- and dirt repellent. Furthermore the sandwich-mesh is particularly breathable. The coarsemeshed nylon fabric is extremely tear-resistant, offers a good padding and does not show any sign of fatigue in tough working conditions.

### COMFIT<sup>®</sup> VIVA

The anatomically shaped footbed made of soft EVA has shock-absorbent properties that improve the protection of joints, muscles and bones. The ergonomic longitudinal arch support delivers optimized stability, while the textured section on the ball massages the front of the foot with every step. The perforations improve breathability – to pleasantly optimize comfort.

### CUSHIONING MIDSOLE

This soft PU midsole optimally cushions the high impacts of walking and combines perfect stability with flexibility.
