BLACK BLUE LOW  
647500

AER55 IMPULSE  
BLACK BLUE QL LOW  
647502

### DUAL IMPULSE SLIP RESISTANT OUTSOLE

The easy to clean rubber outsole ensures perfect ground contact. It is non-slip and abrasion resistant as well as heat resistant up to 300°C (HRO). The specially designed cleat profile and the wide flex grooves guarantee optimum flexion, optimize the water-displacing properties (windscreen wiper effect) and provide firm grip on a wide variety of grounds.

### IMPULSE.FOAM® midsole

Ultimate comfort during long working days. The innovative IMPULSE.FOAM® midsole in two different densities reacts to each of your steps with an energy impulse. Thereby the IMPULSE.FOAM® does not only return the energy, but also provides maximum cushioning and excellent stability.

### FITFRAME® (SEAMLESS TECHNOLOGY)

Innovative designs, high functionality and a low weight - with FITFRAME® no problem. Seamlessly welded reinforcements combined with breathable textiles ensure maximum breathability and comfort

### SAFETY KNIT®

STEP IN COMFORT - The ultraflexible textile fabric perfectly adapts to the foot and fits like a sock. The upper SAFETY KNIT®, a mixture of high quality synthetic fibres, offers a high flexibility, resistance and breathability at the same time.
