- Footbed:** anatomically formed comfit[®] AIR footbed
- Sole:** Sport XTS – 300° heat-resistant rubber outsole with TPU torsion protection
- Colour:** black
- Sizes:** 39 - 47

XTS SOLE

Robust, up to 300°C heat resistant HRO rubber outsole (SRC) with differently formed profile elements that provide grip on various grounds and have self-cleaning properties. Oil and petrol resistant, antistatic.

SHOCK ABSORBING EVA MIDSOLE

The soft and extremely lightweight EVA midsole offers optimum cushioning in the heel and forefoot area, where most of the stress during walking arises and improves the flexing action of the foot.

comfit[®] AIR FOOTBED

The newly developed, breathable ALBATROS[®] comfit[®] AIR footbed has elevations in the heel and ball area of the foot as well as a support of the longitudinal arch. This helps the foot keeping its natural position in the shoe and stimulates the musculature while walking. The slip-resistant textile cover is odour-resistant, moisture absorbing and washable at 30°C.

UPPER

Oiled nubuck leather has the same velvety character like nubuck leather, but it's smoother and offers more protection against moisture penetrating. Furthermore it also prevents premature ageing by low maintenance.
