KRYPTON BLUE MID
634270

naturalFLEXMOTION®

The double density PU sole consists of an enormous soft and cushioning PU midsole and a very flexible PU outsole. The wafer profile provides extra support on industrial floors, is easy to clean and offers firstclass „LadderGrip“.

iCELL

The hard-wearing honeycomb structure of the iCell element improves the cushioning while enhancing the shoe's stability, guidance and comfort.

FAP® - FLEXIBLE ANTI PERFORATION

The flexible anti-perforation midsole made of ceramic-coated fibers, reliably protects the feet completely from penetrating objects.

FUSE.TEC®

Reinforcement elements are seamlessly welded using FUSE.TEC®. Therefore it is possible to work without seams in areas subject to high stress (flex zones). The shoe is more flexible, resistant and has a perfect fit.
