MOTION WNS SOLE

Heat resistant up to 300°C, the tread on the rubber outsole delivers perfect contact on a wide variety of surfaces. The lateral elevation of the midsole in the heel area, which is frequently used in running, improves the stability of heel contact.

TRIPLE ARCH SUPPORT SYSTEM

The perfectly balanced arch supports of outsole, evercushion® EASY footbed and ergonomic last create a harmonious unit and deliver optimized foot support.

FAP® LITE - FLEXIBLE ANTI-PERFORATION

The latest generation of metal-free antiperforation:

- 50% lighter*
- excellent flexibility
- improved cushioning and pressure elasticity
- breathability and sweat absorption for a cooling effect

* compared with FAP®

EVERCUSHION® EASY

The combination of breathable, open-cell foam technology and particularly moisture absorbing upper material quickly wicks sweat away from the feet and keeps them pleasantly dry. The soft memory foam of the evercushion® EASY footbed adapts perfectly to the contours of the foot and has outstanding cushioning properties - for a soft walking sensation.
