

# PRODUCT DATA SHEET

## FUSE MOTION 2.0 GREEN LOW S1PS ESD HRO SR

Art. No. 64.388.0

- Protection:** fiberglass toe cap and flexible FAP® midsole
- Plus:** ESD, non-metallic, toe cap protection, quick lacing system, extra pair of laces in the box, DGUV 112-191
- Upper:** Sandwich-Mesh with FUSE.TEC® elements
- Lining:** BreathActive functional lining
- Footbed:** evercushion® BA
- Sole:** rubber sole MOTION IMPULSE - 300°C heat and slip-resistant rubber outsole with IMPULSE.FOAM® midsole in two different densities for maximum cushioning, stability and comfort
- Colour:** gray-green
- Sizes:** 39 - 48

Also available:

FUSE MOTION 2.0 RED LOW  
633890

XCITE GREY LOW  
643860

### RUBBER SOLE MOTION

The 300°C heat resistant HRO rubber outsole is inspired by the latest running shoe technology. The anti-slip sole profile with its diagonal flex grooves ensures optimum flexibility and maximum traction (SRC).

### TORSION CONTROL ELEMENT

The TPU torsion control element in the middle of the sole supports the natural flexing action of the foot while walking and provides a better support and stability for the feet.

### IMPULSE.FOAM® midsole

Ultimate comfort during long working days. The innovative IMPULSE.FOAM® midsole in two different densities reacts to each of your steps with an energy impulse. Thereby the IMPULSE.FOAM® does not only return the energy, but also provides maximum cushioning and excellent stability.

### FUSE.TEC®

Reinforcement elements are seamlessly welded using FUSE.TEC®. Therefore it is possible to work without seams in areas subject to high stress (flex zones). The shoe is more flexible, resistant and has a perfect fit.
