- Protection:** embout en fibre de verre et semelle anti-perforation souple FAP®
- Plus:** ESD, sans métaux, protection résistante à l'abrasion pour la partie d'orteil, système de laçage rapide, des lacets cordelets dans le carton, DGV 112-191
- Tige:** Sandwich-Mesh avec des éléments FUSE.TEC®
- Doublure:** BreathActive doublure multifonctions
- Assise du pied:** evercushion® BA
- Semelle:** semelle en caoutchouc MOTION IMPULSE - résistante à la chaleur jusqu'à 300°C et antidérapante, semelle intermédiaire de deux couches individuelles d'IMPULSE.FOAM® pour une absorption maximale des chocs, une stabilité excellente et un confort idéal
- Couleur:** gris-vert
- Tailles:** 39 - 48

RUBBER SOLE MOTION

The 300°C heat resistant HRO rubber outsole is inspired by the latest running shoe technology. The anti-slip sole profile with its diagonal flex grooves ensures optimum flexibility and maximum traction (SRC).

TORSION CONTROL ELEMENT

The TPU torsion control element in the middle of the sole supports the natural flexing action of the foot while walking and provides a better support and stability for the feet.

IMPULSE.FOAM® midsole

Ultimate comfort during long working days. The innovative IMPULSE.FOAM® midsole in two different densities reacts to each of your steps with an energy impulse. Thereby the IMPULSE.FOAM® does not only return the energy, but also provides maximum cushioning and excellent stability.

FUSE.TEC®

Reinforcement elements are seamlessly welded using FUSE.TEC®. Therefore it is possible to work without seams in areas subject to high stress (flex zones). The shoe is more flexible, resistant and has a perfect fit.
