- Colour:** black-blue
- Sizes:** 39 - 47

Also available:

RIO BLACK LOW  
642750

AMSTERDAM MID  
632240

### METRO SOLE

For the first time in safety footwear, the unique full TPU outsole provides special features you only know from high quality football shoes. For example a slim sole design, high durability, top grip (SRC) and great flexibility. The drawn up scuff cap avoids abrasion of the leather in the toe area, also when you are working on your knees

### ALUMINIUM TOE CAP

Same protection as steel but 30% less weight. Due to the low thermal conductivity there are less cold spots. The spacious fit ensures a pleasant comfort.

### idCELL

The idCELL in the heel area consists of a very soft shock-absorbing EVA material. It perfectly absorbs impacts and shocks when the heel strikes the ground.

### UPPER

The homogeneous and insensitive surface of the suede leather makes this shoe more breathable and resistant in tough everyday work.
